

Pink Links Nomination Form

Sponsored by THE PLAYERS Championship, TOUR Academy TPC Sawgrass and Baptist Health, the Pink Links program offers all breast cancer survivors, who are at least six months out of treatment, an opportunity to learn and play golf with other survivors.

Three levels of instruction are offered and each level includes four weekly sessions of an hour-and-a-half each. The level one sessions are free for program participants and the level two and level three sessions are offered at \$75 each, which is half the usual cost of the program. **The starting date is Saturday, October 4, 2008, and the program will run for 12 weeks.**

A volunteer committee of breast cancer clinicians, physicians, nurses and other caregivers will choose participants and alternates. *Everyone will be notified; those chosen will be sent a registration form and medical release to be completed and returned.*

Nominee Name _____

Address _____

City _____ State _____ Zip _____
