Public Internet Access

Depend On Us For Life.™

Depend On Us For Life.™

For many, the Internet is a primary avenue for gathering and sending information. As health care providers, we understand that this connection provides patients and loved ones with a vital link to the “outside world.” At Baptist Medical Center South, there are various locations where the Internet may be accessed.

Personal computer (pc) workstations for patient and visitor use are strategically placed throughout the facility, along with network jacks that allow personal notebook (laptops) to be plugged in.

We hope this amenity will provide those staying or visiting with us an ongoing opportunity to send and retrieve e-mail, collect information on health topics of interest and keep in touch with friends and family.

PC Workstations

The Library for Healing, located on the first floor of Baptist South, provides access to personal computers for patient/visitor use during normal business hours. Personal computer workstations are also available in the Resource Centers, located adjacent to each nursing station on the 3rd, 4th and 5th floors.

Network Jacks

Network jacks allow connection to the Internet using a personal notebook and a network connection cable.

Locations include:

- **Patient Rooms**
A network jack is located under the desk in each.
- **Family Rooms (3rd, 4th, and 5th floors)**
Each of these retreat areas has one network jack.
- **The Library for Healing (1st floor)**
A network jack is located in The Library for Healing.

Terms of Use

At the start of each Internet session, users will be asked to read and accept the terms of use. Internet access at Baptist South is provided to patients and their visitors at no charge. We ask only that users practice good “netiquette,” and remain considerate to others at all times (e.g., limiting online time if others are waiting, wearing headphones for audio, etc.).
